TYKES CORNER

April is Child Abuse Prevention Month.

Discipline and teaching your children acceptable ways to behave can be one of the most challenging parts of parenting. The purpose of discipline is to guide your child through their developmental stages while teaching them important lessons and behaviors that will help them grow into successful adults. One resource to help support you in this is ["Circle of Parents."](#)

Also, check out the Parent Education topic for this month on our website: **"To Discipline Means to Teach"**.
