Sustainable Safari will be here on Tuesday, June 23rd beginning at 9:30 a.m. for Toddlers through School Age. With the help of the Safari Guides, wildlife interactions will energize, engage, and educate us about animals, natural science, and the challenges they face today. Sustainable Safari hopes to inspire humanity to save wild animals from extinction and help make the planet much healthier for all living species.

PARENT EDUCATION

Vacation season is rapidly approaching. More families are choosing vacation rental homes over traditional hotels for added space, privacy, and convenience. With this shift, the Consumer Product Safety Commission (CPSC) urges families to consider these important safety recommendations when looking to rent homes that include pools. Before you book and before you swim, know what to look for and how to stay safe this summer.
