To all of the moms....

CALMING ACTIVITIES

Let's face it, we could all use some calming activities nowadays! Here is a homemade calm down jar activity for the whole family. Note: You may want to use a plastic jar.

Materials:

- *Mason jar or plastic bottle
- *Glitter glue OR clear glue and add your own glitter
- *Hot water
- *Hot glue gun (or super glue)

Instructions:

1. Pour hot water into your jar. Fill to the neck of the jar (the glue will take some space but not much).
2. Pour the Glitter Glue into the jar. **Tip:* The more glue you add to the water, the longer it will take for the glitter to settle.
3. Using a plastic spoon or dowel, simply stir the glue around. The hot water will break up the glue. If it doesn't then the water is not hot enough.
4. Screw the lid onto your jar. Using the hot glue gun, seal the lid to avoid any leaks.
